

AFCONA – PL155

Chemical Composition

Modified acrylic polymer in aqueous solution.

Product general description

Non silicon leveling and substrate wetting agent for water based systems.

Product Properties

AFCONA-PL155 possess the following properties:

- 1.Excellent anti-crater effect.
- 2.Optimal substrate wetting
- 3.Improve the surface leveling
- 4.No negative effect on intercoat adhesion.
- 5.No tendency to form foam

AFCONA – PL155 is indicated for the use in all kind of water based systems having alkaline PH.

Product specification

Active ingredients	60% +/- 1%
Solvent	Water
Density at 20 °C	1.06 g/cm ³ +/- 0,01
Flashpoint	> 110°C
Colour	max.5
Appearance	Transparent to slightly yellowish liquid

Addition and dosage

0.5 - 1.5% on total formulation.

Incorporation

AFCONA – PL155 should be added at the end of the batch preparation.

Storage

AFCONA – PL155 should be stored in a cool dry place and protected against frost. When kept in an original unopened container, it will keep up to 3 years from the date of manufacture. The expiry date is indicated on the container.

Packaging

25 & 190kg non-returnable containers
