

EU-waX L 230 UV

PE-wax dispersion 45 % in TPGDA

Product Information

L 230 UV is **high solid** wax dispersion in TPGDA. This high density PE- dispersion is designed to improve slip and scratch resistance in **solvent free UV coatings**. **L 230 UV** shows efficient matting properties.

Technical Data

Delivery Form	White liquid
Basis	HDPE-Wax
Solvent	TPGDA
Solid content	45%
Melting point (wax)	130° C (wax)
Density (23 °C)	~ 1 g / cm ³

Properties

Addition of 1% – 3% on total will provide the following effects

- In paints
 - **Excellent slip**
 - **Mar – and scratch resistance**
 - **efficient matting**
- In inks
 - **Excellent abrasion resistance**

Handling

L 230 UV is incorporated in the finished formulation by using normal stirring equipment.

Storage: 4°C – 35°C
