

# EU-waX L 230 W

PE-wax dispersion 60 % in Water

## Product Information

**L 230 W** is **high solid** wax dispersion in water. This high density PE- dispersion is designed to improve anti blocking and scratch resistance in **inks and industrial coatings**. In wood and furniture finishes it provides a smooth touch and reduced metal marking.

### Technical Data

Delivery Form	White liquid
Basis	HDPE-Wax
Solvent	Water
Solid content	60%
Melting point (wax)	130° C (wax)
Density (23 °C)	0.99 g / cm <sup>3</sup>

### Properties

Addition of 1% – 3% on total will provide the following effects

- In paints
  - **Excellent slip**
  - **Mar – and scratch resistance**
  - **Anti blocking**
- In inks
  - **Excellent abrasion resistance**

### Handling

**L 230 W** is incorporated in the finished formulation by using normal stirring equipment.

Storage: 4°C – 35°C
