

EU-waX L 7268 W

Wax Dispersion 60% in Water

Product Information

L 7268 W is **high solid** wax dispersion in water. This combination of Carnauba, modified PE-wax and PTFE is designed to improve mar and scratch resistance in **inks and industrial coatings**. In wood and furniture finishes it provides a smooth touch and reduced metal marking.

Technical Data

Delivery Form	White liquid
Basis	modified PE-wax + PTFE
Solvent	Water
Solid content	60%
Melting point (wax)	85°C - 128° C (wax)
Density (23 °C)	0.99 g / cm ³

Properties

Addition of 1% – 3% on total will provide the following effects

- In paints
 - **Excellent slip and mar – resistance**
 - **Reduction of metal marking**
 - **Gloss control**
- In inks
 - **Excellent slip and rub resistance**

Handling

L 7268 W is incorporated in the finished formulation by using normal stirring equipment.

Storage: +4°C – + 30°C
